(2) For site on which the steel mats were piled, see Annex. It is believed that an auxiliary runway with a maximum width of 30 meters is being built there.(3) Efforts have been initiated to clarify whether only one radio station with

two masts as reported in paragraph 2 of the present report or in addition a DF station are available at the installation.

(4) The fuel tanks were observed for the first time.
(5) The presence at the field of this AA gun is reported for the first time.
